1957 AC ACE BRISTOL

Chassis BEX 260 was built in left-hand drive configuration in late 1956 and later exported to A.C. Imports, Virginia, USA in May 1957.

A matching numbers example, BEX 260 was previously the subject of a complete body off restoration and is presented in its original colour scheme of white with red leather trim and is accompanied by hood frame, hood and tonneau.

There is a substantial history file containing period invoices and letters between AC Cars Ltd, Bristol Cars and previous owners along with photographs of the restoration process.

With FIA Historic Technical Passport present, this Bristol engined Ace is eligible for a myriad of events and fitted with Heuer Monte Carlo dash mounted stopwatches is ready for competition.
