1965 FERRARI 275 GTB/C COMPETITION

Just arrived! 1965 Ferrari 275 GTB/C Competition. The latest arrival in our London showrooms is one of the rare and highly sought after 275 GTB/C Competition models built by the Ferrari factory for the 1965 season. Although these competition cars looked similar to the road cars, from nose to tail, the differences were significant. They featured ultra lightweight aluminium bodies, six carburettors on a full competition engine along with other details such as outside fuel fillers as well as extra body louvers. Beautifully presented in Rosso Corsa and prepared, regardless of cost, to be a front running circuit racer that is still at home on the road, this 275 GTB/C has successfully participated in all the major events including Goodwood and Le Mans Classic. With the engine and transaxle having been meticulously prepared by the renowned specialists Roelofs, this very important GT Ferrari is presented in superb condition throughout and is accompanied by an extensive history file.
