1928 BENTLEY 4.5 LITRE

Ordered through Bentley Boy Jack Barclay by the famous philanthropist John Mavrogordato, who was soon photographed with YV 1471 at Brooklands in 1928 proudly showing the Bentley's beautiful new Vanden Plas open touring body. Bentley records show a return to the factory in1929 when the radiator was chromed and Lucas P100 headlights fitted.Today YV 1471 represents a well known W.O. Bentley that embodies all that is great about Vintage motoring.
